Summary

An Undergraduate Student of Computer Science specializing in Data Science. Experienced with major fields in natural language processing and data mining. Capable of developing full-stack websites, but prefer frontend web developer. A leader in most projects in college. An easy-going person, but strict to deadlines. To be a loyal person means availability and time adjustment are my top priority.

Skill Highlights

- Machine Learning
- Natural Language Processing
- Full Stack Web Developer
- Photography
- Innovative

Experience

Web Developer - 06/2020 to 08/2020
